This is a comprehensive rehabilitation textbook emphasizing functional approach based on the aspects of the Prague School of Rehabilitation ([www.rehabps.com](http://www.rehabps.com)), which was developed by Professors Vojta, Janda, Lewit and others. The publication is divided into general and special sections. The diagnostic section describes in detail clinical evaluation approaches for the musculoskeletal system, testing and assessment of a motor and sensory involvement and limitations in the activities of daily living. The text also includes psychological assessment in rehabilitation of painful conditions, functional laboratory assessments and functional assessment using imaging methods. In the general section of the therapeutic approaches, the authors focus on treatment rehabilitation of the motor system and also focus on disorders of other organ systems. The special section of the book includes rehabilitation of individual clinical specialties, in which treatment rehabilitation plays an important part. The individual chapters include rehabilitation in neurology, orthopedics, internal diseases, gynecology, oncology, psychiatry, pain and psychosomatic conditions.

This book is unique in its presentation of human development and the options for its implementation into diagnostic and therapeutic approaches of the movement system. A chapter is also devoted to the original diagnostic-therapeutic approach of Dynamic Neuromuscular Stabilization according to Professor Pavel Kolar, the main editor of the book.

- full-color resource
- exceptional photographs of developmental sequences, radiographic images, diagrams and schematic drawings specific to the Prague School of Rehabilitation and Dynamic Neuromuscular Stabilization
