La actual reforma laboral, la inseguridad en el empleo y la bajada de los salarios permiten que el coste de oportunidad del day trading se haya reducido drásticamente. Hoy, obtener 1000 euros/mes especulando compensa más que la retribución que ofrecen por trabajar 10 horas al día. ¡Hay que especular! Nunca antes el acceso al mercado fue tan fácil y barato. Este libro nos introduce en el day trading sin teoría y desde la práctica, mostrando los pasos a seguir, los sistemas a aplicar y los riesgos a prevenir. Recopila ideas y herramientas junto con los errores más comunes.
