Habitan en casas encantadas, castillos, antiguos hospitales y lugares donde la muerte, cruel y devastadora estuvo presente. Quienes dicen haber visto a un fantasma los describen como siluetas o sombras monocromas, por lo general oscuras o blanquecinas, más bien difuminadas, nebulosas o antropomórficas, de carácter inmaterial y transparentes, que flotan y pueden no estar completas o no tener rasgos definidos ni rostro; pero también y más raramente aparecen opacos, de cuerpo entero y con apariencia humana normal. Cuando se mueven parece que caminan como cuando estaban vivos o adoptan la apariencia de esferas de luz u orbes. También han sido vistos saliendo o entrando a través de paredes y techos; moviendo objetos o buscando a sus seres queridos. Ver a un fantasma es una experiencia que jamás podrás olvidar.

Fantasmas. Grandes relatos del Siglo XIX reúne las mejores historias de terror y fantasmas del siglo XIX y principios del XX con las que el lector o lectora experimentara emociones aterradoras.
