From Richard McGuire, one of the great comic innovators, an interactive eBook edition of *HERE*, the long-awaited fulfillment of a pioneering comic vision. *HERE* is the non-linear story of a corner of a room and the events that have occurred in that space over the course of hundreds of thousands of years. In this special eBook edition, scenes can be shuffled and reshuffled, leading to new narrative combinations and connections, and visual surprises await you at the turn of the page. The reader becomes the guide through the events that have happened *HERE*, where time and space are anything but finite and the only limit is the screen itself.
