CHAPTER EIGHT: PLANS

PUBLISHER

Introduction to Shipping Container Homes:

Shipping container homes are houses that are built using shipping containers. The strength, durability, availability, and the cost effectiveness of containers as building material has made these types of homes popular in recent years. When you buy a container, it might appear as hollow boxes with no windows or openings. However, these boxes are highly customizable; they can be stacked and welded together to create beautiful yet economical homes. The next section is about the pros and cons of living in a shipping container home.
