What is hydroponics?

Hydroponics is the art of **growing fruits and vegetables without soil**. Do not confuse this with **aquaponics**, which is the science of farmed fishing and utilizing the fish's waste product as fuel for their hydroponics.

Growing plants without soil is a **rising trend** among many in today's culture. It: removes the dependency on soil, and does away with the confusion of crop rotations, in order to preserve soil health and allowing it to rejuvenate after a harvest.

Growing your own food with hydroponics is a wise investment. One that will yield many benefits!

You won't have to rely on other people's produce You will know that the food you consume is free of chemicals

And it can also be a **profitable investment**: after buying your **hydroponics system**, you will recoup that investment by **saving money** (and time!) on groceries. You could even sell your fruits and vegetables and gain a profit!

Why You Should Check Out 'Hydroponics 101':

'Hydroponics 101' is a complete **step-by-step beginner guide** that will show you how you can become a **hydroponic farmer**.
