Es la historia, contada por él mismo, de John Douglas, el hombre que revolucionó las técnicas para estudiar las mentes de los criminales en serie. Durante veinticinco años como agente especial del FBI, Douglas contribuyó a resolver los casos más difíciles, con aciertos asombrosos, como el que le llevó a anticipar la personalidad de un asesino de niños en Atlanta, contradiciendo las opiniones de la mayoría. Este libro no es sólo el relato de su carrera, sino una escalofriante exploración de las mentes de los asesinos en serie, basada en sus interrogatorios a personajes como David Berkowitz, «el hijo de Sam»; Charles Manson; Edmund Kemper, que comenzó su carrera criminal a los catorce años; Thomas Vanda... Exploraciones que explican que Patricia Cornwell afirme: «Con Douglas entendemos por qué hay monstruos».
