Professional Stonesetting by Alan Revere is intended for beginners, hobbyists, craftspeople, jewelry artists and professional stonsetters. Fifteen setting projects are arranged in ascending complexity, starting with simple bezels and advancing through a variety of prong settings. These are followed by detailed information on preparing a graver including four bead-setting projects and two advanced channel setting projects. Like Revere's companion book, *Professional Jewelry Making*, this book uses closeup photography and clear descriptions that bring even challenging settings within the reach any committed jeweler.
