'Python Programming Language in 24 hours!' is the ultimate resource for newbies looking to learn a programming language that is easy to grasp in a very short time compared to other programming languages such as C++, Java and Pascal.

This book is promising to get you on your way to becoming a master of Python in no time. It endows you with the powers of a programmer with a solid foundation of the basics that you can use to create almost anything you want using Python in 24 hours or less.

The book has clear and straight forward examples that you can just copy and paste with explanations that are short, practical and easy to understand.

The book will teach you:

How to install the latest Python 3 interpreter and using shell and the editor to create Python programs

How to format and print information to the screen using Python commands

How to define variables and perform operations such as arithmetic

How to make your programs interactive by accepting user input and also receiving input from external files such as text files

How to enable your programs to make decisions using conditional statements

How to make your programs repeat a set of operations until a conditional is met through loops

Functions, modules plus much more
