

Descargar libros gratis Synco - Jorge Baradit QBook

A diez años de su publicación se reedita la célebre ucronía del golpe militar de 1973

Estalla el golpe militar y, entre otras figuras políticas y militares de la época, Augusto Pinochet decide defender el gobierno de Salvador Allende.

La oposición fracasa y, para fortalecer las comunicaciones y los sistemas de vigilancia, surge el innovador proyecto *Synco*: una red cibernética que dice optimizar el manejo del Estado y la economía chilena.

El resultado, aparentemente, es un esquema socialista modelo en cuanto a producción y reivindicación cultural; sin embargo, su funcionamiento esconde una secreta esclavización que mantiene el país funcionando bajo una cortina peligrosa de dilucidar.
