*The Complete Color Harmony: Pantone Edition* is the latest in Rockport Publishers' best-selling color series. Completely revised from start to finish this new edition, is written by Leatrice Eiseman, executive director of the Pantone Color Institute. And the color "moods" that she writes about in each chapter are based and matched with Pantone colors. The book expands on previous editions for the most comprehensive color reference to date.

This edition includes information on creating special effects, as well as an entirely new section devoted to the psychology of color. Eiseman helps readers determine their best color choices and suggests why some colors may inspire their creativity while others don't. The book includes new color palette sections along with expanded and updated color trends.
