Geographically speaking, Mexico is usually considered more a part of North America than Central America but from a cultural and political perspective it is more akin to its southern Latino neighbours on the isthmus. Surf-wise, it is a different world from the SoCal hustle and bustle, starting off arid and rocky in Baja, but finishing humid and sandy in Chiapas. Scoured by 3 seas, diversity is the theme, offering the legion of mainly US visitors every wave shape and height available from the big, challenging bombs of Todos and Escondido to the smaller, perfect, impossibly long rights of Scorpion Bay and Las Islitas.

The Stormrider Surf Guides are the worlds best selling and most respected collection of surfing guide books delivered in paper, ebook and app formats. The Stormrider Surf Guides are the only comprehensive colour guides to the coastlines of Europe, North America, Central American and the Caribbean,

Indonesia and the Indian Ocean, South America, Africa, East Asia, The Pacific and Australia. The authoritative text includes oceanographic, environmental and cultural notes on the entire coastlines. Each guide contains numerous full colour maps and superb photos of the best waves, shot by the best photographers. All information is compiled with the help of local riders whose sensitive approach enables an accurate and knowledgeable appraisal. An essential tool for surfers searching for their perfect wave.
