

Descargar libros gratis Truth and Method - Hans-Georg Gadamer DBSBOOK

Truth and Method is a landmark work of 20th century thought which established Hans Georg-Gadamer as one of the most important philosophical voices of the 20th Century. In this book, Gadamer established the field of 'philosophical hermeneutics': exploring the nature of knowledge, the book rejected traditional quasi-scientific approaches to establishing cultural meaning that were prevalent after the war. In arguing the 'truth' and 'method' acted in opposition to each other, Gadamer examined the ways in which historical and cultural circumstance fundamentally influenced human understanding. It was an approach that would become hugely influential in the humanities and social sciences and remains so to this day in the work of Jurgen Habermas and many others.
